

**SAFETY DATA SHEET** Date preparation : 01.12.2020

**(according to: Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 (REACH))**

## AROMA NEUTRALISER

### 1 SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1 Product identifier

**AROMA NEUTRALISER**

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Product for neutralizing unpleasant odors.

SU 21 Consumer applications..

SU 22 Professional applications

PC3 Products for air protection

Uses advised against: Do not use on acid-sensitive surfaces

#### 1.3 Details of the supplier of the safety data sheet

CSG Cleaning Solutions Sp. z o.o.

AL. Armii Krajowej 178

PL 43-300 Bielsko-Biała

Tel: 33 47 11 174

www.laav.eu

#### 1.4 Emergency telephone number

**Emergency telephone number in Poland (open from 8:00 a.m. to 4:00 p.m.): +48 608 47 47 45**

112 (general emergency telephone), 998 (fire department), 999 (emergency ambulance service)

### 2 SECTION 2: HAZARD(S) IDENTIFICATION

#### 2.1 Classification of the substance or mixture.

**Classification according to Regulation (EC) no 1272/2008**

**Hazards resulting from the physicochemical properties:**

The mixture is not classified as hazardous under its physical and chemical properties.

**Health hazards**

**Serious eye damage Hazard category 1 [Eye Dam. 1]**

Serious eye damage (H318)

**Skin irritation Hazard category 2 [Skin Irrit. 2]**

Skin irritation (H315)

**Environmental hazards:**

The mixture is not classified as hazardous to the environment

#### 2.2 Label elements

**Pictogram**

GHS05

**Signal word:**

**Danger**

**Names of hazardous components on the label:**

Contains: milk acid

**Expressions concerning the type of hazard**

**SAFETY DATA SHEET** Date preparation : 01.12.2020

**(according to: Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 (REACH))**

## AROMA NEUTRALISER

H318 Serious eye damage

H315 Irritation for skin

Prevention:

P102 Keep out of the reach of children.

P280 Use protective gloves/protective clothing/eye protection/face protection.

Reaction:

P305 + P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to remove. Continue rinsing.

P310 Immediately call a POISON CENTER/doctor

P302 + P352 IN CASE OF SKIN CONTACT: rinse with plenty of water

Additional labeling elements

**Composition according to regulation 648/2004/EC**

Contains: <5% non-ionic surfactants; fragrance compositions (Cinnamyl alcohol; Eugenol, Amyl cinnamal, Cinnamyl alcohol, Benzyl salicylate), Preservatives [Lactic Acid], dye

### 2.3 Other hazards

The mixture does not contain 'Substances of Very High Concern (SVHC) contained in the list published by the European Chemicals Agency (ECHA) in accordance with Art. 57 of the REACH regulation: <http://echa.europa.eu/pl/candidate-list-table>; Components do not meet the PBT or vPvB criteria according to Annex XIII of Regulation (EC) No 1907/2006

**PBT** (Substance) Persistent, bioaccumulative and toxic

**vPvB**(Substance) Very persistent and very bioaccumulative

## 3 SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 Substance:

Not applicable

### 3.2 Mixtures

Identification numbers	Chemical name	mass fraction in%	Classification according to Regulation (EC) No. 1272/2008		
			Pictogram, signal word codes	Hazard class and category codes	Codes for hazard statements
CAS: 68439-46-3 WE (EINECS): Polimer Index number: Registration number: Exemption from REACH regulation: Polymer.	Alcohols, C9-11, ethoxylated	<10	GHS07 Wng	Acute Tox. 4 Eye Irrit. 2	H302 H319

The full text of the H-phrases is given in section 16 of the Safety Data Sheet.

[1] Contains substance with nationally determined workplace exposure limits. See section 8

**SAFETY DATA SHEET** Date preparation : 01.12.2020

**(according to: Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 (REACH))**

## AROMA NEUTRALISER

### 4 SECTION 4: FIRST AID MEASURES

#### 4.1 Description of first aid measures

Inhalation:	Take the injured persons out of the place of exposure, place them in a n a half-lying and comfortable position or sitting position, keep them calm, protect against heat loss. Control the breathing of the injured persons - if necessary (no breathing), apply artificial respiration and seek medical attention.
Skin contact:	Take off contaminated clothing and rinse skin abundantly with lukewarm, running water.
Eye contact:	Rinse with plenty of cool water, preferably running water, for at least 15 minutes. Remove contact lenses. Avoid strong stream of water because of the risk of mechanical damage to the cornea. If irritation persists, consult an ophthalmologist.
Digestive tract:	Provide medical attention. Do NOT induce vomiting without consulting your doctor. Rinse mouth with plenty of water. Call a doctor.

#### 4.2 Most important symptoms and effects, both acute and delayed

Skin contact: Irritating for skin. Long-term exposure may cause redness and dryness

Allergies

It is always possible an allergy to one or more ingredients of the product. A low irritation declaration does not mean that susceptible individuals will not respond adversely. Natural substances are especially sensitive to seasonal and other changes that can contribute to unforeseen reactions. Unfortunately, often the only remedy in these situations is to establish the exact cause of the reaction (usually with professional medical help) and then avoid any future exposure.

Eye contact: Contact causes pain and watery of eyes, chemical burn with corneal ulceration.

After ingestion: Possible nausea, abdominal pain, vomiting.

After inhalation: Inhalation of vapors may cause headache, dizziness, nausea and vomiting

#### 4.3 Indication of any immediate medical attention and special treatment needed

Show the MSDS or the label/packaging to the medical personnel providing assistance. In case of eye burns, rinse the conjunctiva with water or saline solution (no neutralizing solutions should be used), in order to relieve pain - novocaine drops. Must be referred to an ophthalmologist. The workplace should be equipped with a shower and an eye wash station.

### 5 SECTION 5: FIREFIGHTING MEASURES

#### 5.1 Extinguishing media

Non-flammable product

Suitable extinguishing media:

Foam, carbon dioxide, extinguishing powders, water - dispersed currents.

Inappropriate extinguishing media:

Strong, compact stream of water - risk of fire spreading.

#### 5.2 Special hazards arising from the substance or mixture

Toxic combustion products may form during combustion, incl. carbon oxides and other unidentified products of thermal decomposition.

#### 5.3 Advice for firefighters

Use general protection measures, typical in case of fire. Do not stay in the fire-endangered area without appropriate chemical-resistant clothing and self-contained breathing apparatus. Do not allow the extinguishing water to enter the sewage system, surface water and groundwater.

### 6 SECTION 6: ACCIDENTAL RELEASE MEASURES

**SAFETY DATA SHEET** Date preparation : 01.12.2020  
**(according to: Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 (REACH))**

## AROMA NEUTRALISER

### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:

Limit the access of unauthorized people to the endangered area until appropriate cleaning operations are completed. In case of large spills, isolate the endangered area. Do not inhale vapors. Avoid contact with skin and eyes. Use personal protection measures. Provide adequate ventilation.

For emergency personnel:

Make sure that the failure and its effects are removed only by trained personnel. Use personal protection measures. Remove sources of ignition.

### 6.2 Environmental precautions

In the event of release of larger amounts of the product, you should prevent its spreading into the environment. Notify the appropriate emergency services

### 6.3 Methods and material for containment and cleaning up

Small spill: Collect with a mop, paper towel and place in waste containers

Large spill: Collect the product with liquid-absorbing materials (e.g. sand, earth, universal binders, silica, etc.) and place in waste containers. Do not mix with other waste. Treat the collected material as waste. Clean and ventilate the contaminated place well.

### 6.4 Reference to other sections

See section 8 for information on appropriate personal protective equipment. Waste treatment: see section 13.

## 7. SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

Work in accordance with the safety and hygiene rules. Avoid eyes and skin contamination. Keep unused containers tightly closed. Use as intended. Provide adequate ventilation of rooms where the product is stored and used. Do not inhale vapors of the product. Do not smoke tobacco

### 7.2 Conditions for safe storage, including any incompatibilities

Store only in a cool and well-ventilated place. In the temperature range: 0 to 40 ° C (Do not store together with food, foodstuffs and animal feeding stuffs. Avoid direct sunlight, sources of heat and ignition. Do not store together with incompatible substances (see section 10). Packages that have already been opened, seal and store upright to avoid leakage.

### 7.3 Specific end use(s)

See section 1.2 of the SDS.

No information on other uses.

## 8 SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control parameters

PL:Propane-2-ol [67-63-0]	
NDS	900 mg/m <sup>3</sup>
NDSCh	1200 mg/m <sup>3</sup>

**Legal basis:**

Regulation of the Minister of Family, Labor and Social Policy of 12 June 2018 on the maximum allowable concentrations and intensities of factors harmful to health in the work environment, Journal of Laws 2018.1286 of 2018.07.03, **as amended** [Journal of Laws 2020.61, of January 17, 2020]

Regulation of the Minister of Health of February 2, 2011 on tests and measurements of factors harmful to health in the work environment (Journal of Laws No. 33, item 166, 2011).

**SAFETY DATA SHEET** Date preparation : 01.12.2020

**(according to: Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 (REACH))**

## AROMA NEUTRALISER

Regulation of the Minister of Health of 30 December 2004 on occupational health and safety related to the presence of chemical agents in the workplace (Journal of Laws No. 11, item 86, 2005).

### **Values and DNEL and PNEC:**

<b>C12-14 alcohols (even numbered), ethoxylated &lt;2.5 EO, sulphates, sodium salts 68439-46-3</b>	
<b>DNEL</b>	
<b>Workers</b>	
Long-term effects - general effects, skin	2 750 mg/kg body mass/day
Long-term effects - general effects, inhalation	175 mg/m <sup>3</sup>

<b>PNEC</b>	
PNEC value, fresh water	140,9 mg/l
PNEC value, marine water	140,9 mg/l
PNEC value, sediment (fresh water)	552 mg/kg
PNEC value, sediment (marine water)	552 mg/kg
PNEC value, soil	28 mg/kg

### Recommended monitoring procedures

Procedures for monitoring concentrations of hazardous components in the air and procedures for monitoring air purity in the workplace should be applied - if available and justified at a given position - in accordance with the relevant Polish or European Standards, taking into account the conditions at the site of exposure, and appropriate measurement methodology adapted to the conditions work. The mode, type and frequency of tests and measurements should meet the requirements of the Regulation of the Minister of Health of February 2, 2011 (Journal of Laws 2011 No. 33, item 166).

## 8.2 **Exposure controls**

### 8.2.1 Appropriate technical controls

Necessary local and general ventilation. Use respiratory protection in case of poor ventilation.

### 8.2.2 Individual protection measures, such as personal protective equipment

Observe the general rules of safety and hygiene. During work you must not eat, drink or smoke. Provide adequate ventilation. Wash hands thoroughly before breaks and after work. Avoid eye contamination.

**SAFETY DATA SHEET** Date preparation : 01.12.2020

**(according to: Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 (REACH))**

## AROMA NEUTRALISER

Respiratory protection:	It is not required if proper ventilation. In case of high concentration of vapors, failure or exceeding the maximum allowable concentrations, use appropriate respiratory protection equipment with an appropriate organic vapor absorber
Hand protection:	Use chemical-resistant protective gloves. Recommended glove material: butyl rubber, nitrile rubber, neoprene. In the case of short-term contact, use protective gloves with the effectiveness level 2 or higher (breakthrough time > 30 minutes). In case of long-term contact, use protective gloves with the effectiveness level 6 (breakthrough time > 480 minutes). Use protective clothing. The glove material has to be impermeable and resistant to the product. The resistance of the glove material has to be checked prior to use. The breakthrough time of the substance has to be included in the instruction for use from the manufacturer of the protective gloves and has to be observed. It is recommended to change gloves regularly and replace them immediately if there are any signs of wear, damage (tears, holes) or changes in appearance (color, elasticity, shape).
Skin and body protection:	Recommended use of typical work clothes applicable at a given workplace
Eye protection:	Use safety glasses <u>The workplace should be equipped with a shower and an eye wash station.</u>

### 8.2.3 Environmental exposure controls

Protection against entering into the municipal water and sewage system and water courses. Possible emissions from ventilation systems and technological equipment should be checked in order to determine their compliance with the requirements of environmental protection law.

## 9 SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

Physical state:	Liquid
Colour:	Transparent to pink
Odour:	Specific: cherry
Odour threshold:	No data
pH:	about 3,0
Melting/freezing point:	<0°C
Initial boiling point	< 72 °C
Flash point:	Product is non-flammable
Evaporation rate:	No data
Flammability of solids, gases:	Not applicable
Upper/lower flammability/explosive limit	Not determined
Vapor pressure:	Not determined
Vapor density:	Not determined
Relative density:	about 1.0 g/cm <sup>3</sup>
Solubility:	Dissolves in water
Partition coefficient: n-octanol/water:	No data available
Auto-ignition temperature:	Not determined
Decomposition temperature:	No data
Viscosity 240C:	Not determined
Explosive properties:	Does not create the possibility of spontaneous explosion
Oxidizing properties:	The mixture has no oxidizing properties

### 9.2 Other information

No additional test results.

## 10 SECTION 10: Stability and reactivity

**SAFETY DATA SHEET** Date preparation : 01.12.2020

**(according to: Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 (REACH))**

## AROMA NEUTRALISER

### 10.1 Reactivity

The conditions of storage and handling as intended - no reactivity.

### 10.2 Chemical stability

The product is chemically stable when properly stored and used (from 0 to 40 degrees Celsius, without long-term exposure to sunlight).

### 10.3 Possibility of hazardous reactions

Hazardous reactions will not occur in normal conditions of storage and use

### 10.4 Conditions to avoid

High temperatures, open flames and other ignition sources

### 10.5 Incompatible materials

Strong acids, oxidizing substances, copper

### 10.6 Hazardous decomposition products

Depending on the conditions of decomposition, it can release complex mixtures of chemicals: carbon dioxide (CO<sub>2</sub>), carbon monoxide and other organic compounds. See section 5 for more information.

## 11 SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

#### Additional information:

Toxicological tests have not been carried out for this product. It has been classified according to the applicable rules for the classification of chemical mixtures. The assessment was made on the basis of the ingredients included in the product. The mixture is classified as hazardous to health. See section 2 Hazard identification

#### **Toxicity of components of the mixture**

C12-14 alcohols (even numbered), ethoxylated <2.5 EO, sulphates, sodium salts

LD50 skin (rat) >2000 mg/kg -

LD50 orally (rat) >2500 mg/kg

#### Citric acid

LD50 skin (rat) >2000 mg/kg -

LD50 orally (mouse) 5400 mg/kg

#### Propan-2-ol [

LD50 skin (rat) >2000 mg/kg

LD50 Digestive tract, rat >2000 mg/kg

#### **Toxicity of the mixture**

#### Estimated acute toxicity of the mixture

ATE MIX orally (mg/kg): >2.000,0 [Estimated value]

ATE MIX skin (mg/kg): >2.000,0 [Estimated value]]

ATE MIX inhalation (mg/l/4h): >20 [Estimated value]

Based on available data, the classification criteria are not met

The acute toxicity of the mixture (ATEmix) was calculated based on the appropriate conversion factor in Table 3.1.2. of Annex I to the CLP Regulation as amended.

#### Acute toxicity

Based on the available data, the classification criteria are not met

#### Corrosive/irritating effect on the skin:

Irritating effect

#### Serious eye damage/eye irritation

Serious eye damage

#### Respiratory or skin

Based on the available data, the classification criteria are not met

#### Specific target organ toxicity - single exposure:

Based on the available data, the classification criteria are not met

#### Specific target organ toxicity - repeated exposure:

Based on the available data, the classification criteria are not met

#### Carcinogenicity

**SAFETY DATA SHEET** Date preparation : 01.12.2020

**(according to: Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 (REACH))**

## AROMA NEUTRALISER

Based on the available data, the classification criteria are not met

Mutagenic effect on reproductive cells:

Based on the available data, the classification criteria are not met

Harmful for reproductiveness:

Based on the available data, the classification criteria are not met

Aspiration hazard:

W Based on the available data, the classification criteria are not met

Information on likely routes of hazard

Skin contact:

Irritating for skin. Long last exposure may cause redness, dryness.

**Allergies**

It is always possible an allergy to one or more ingredients of the product. A low irritation declaration does not mean that susceptible individuals will not respond adversely. Natural substances are especially sensitive to seasonal and other changes that can contribute to unforeseen reactions. Unfortunately, often the only remedy in these situations is to establish the exact cause of the reaction (usually with professional medical help) and then avoid any future exposure.

Eye contact:

Contact causes pain and watery of eyes, chemical burn with corneal ulceration.

After ingestion:

Possible nausea, abdominal pain, vomiting.

After inhalation:

Inhalation of vapors may cause headache, dizziness, nausea and vomiting.

## 12

### SECTION 12: ECOLOGICAL INFORMATION

#### 12.1 Toxicity

##### **Toxicity of the mixture**

The product is not classified as hazardous to the environment.

To minimize long-term global pollution, you should consider:

- Reduction of the consumption of disposable products and packaging.
- Participation in activities related to recycling
- Do not allow the product to enter water, sewage or soil

##### **Toxicity of components of the mixture**

C12-14 alcohols (even numbered), ethoxylated <2.5 EO, sulphates, sodium salts

EC50 2.6 mg/l Fresh water, alga - Desmodesmus subspicatus 72 h

LC50 Fish 11130 mg/l/96 h/Pimephales promelas

EC50 other aquatic organisms> 1000 mg/l/72 h/ Desmodesmus subspicatus

#### 12.2 Persistence and degradability

The surfactants used in the product meet the biodegradability requirements in accordance with EC regulation 648/2004

**SAFETY DATA SHEET** Date preparation : 01.12.2020

**(according to: Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 (REACH))**

## AROMA NEUTRALISER

### 12.3 **Bioaccumulative potential**

It is not determined for the mixture.

### 12.4 **No data available for the mixture**

Water soluble in any proportion

The mobility of substances depends on their hydrophilic and hydrophobic properties as well as abiotic and biotic conditions of the soil, including its structure, climatic conditions, season (in Poland, in a temperate climate) and soil organisms, mainly (bacteria, fungi, algae, invertebrates).

### 12.5 **Results of PBT and vPvB assessment**

The substances contained in the product are not assessed as PBT and vPvB

### 12.6 **Other adverse effects**

The mixture is not classified as hazardous to the ozone layer. The possibility of other harmful effects of the individual components of the mixture on the environment should be considered (e.g. endocrine disrupting capacity, global warming potential).

## 13 SECTION 13: DISPOSAL CONSIDERATIONS

### 13.1 **Waste disposal methods**

Product removal:

Do not dispose of the product together with municipal waste, do not empty into the sewage system. Do not allow contamination of ground and surface waters.

Dispose of in accordance with applicable regulations. Determine the waste code at the place of its production

Legal basis:

Act of 14 December 2012 on waste (Journal of Laws No. 0, item 21) **Consolidated text, Journal of Laws No. 2018 item 21**

Regulation of the Minister of Climate of 2 January 2020 on the waste list, **Journal of Laws No. 2020 item 10**

Act of 12 October 2017 amending the Act on the management of packaging and packaging waste and certain other acts, Journal of Laws No. 2017 item 2056

## 14 SECTION 14: TRANSPORT INFORMATION

### 14.1 **UN number**

Not applicable

### 14.2 **UN proper shipping name**

Not applicable

### 14.3 **Transport hazard class(es)**

Not applicable

### 14.4 **Packing group**

Not applicable

### 14.5 **Environmental hazards**

The product does not pose a threat to the environment in accordance with the criteria of the UN Model Regulations.

### 14.6 **Special precautions for user**

No special precautions.

### 14.7 **Bulk transport in accordance with Annex II to MARPOL 73/78 convention and the IBC Code**

Not applicable.

## 15 SECTION 15: REGULATORY INFORMATION

### 15.1 **Safety, health and environmental regulations/legislation specific for the substance or mixture**

1. **REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL** of 18 December 2006 | concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a

**SAFETY DATA SHEET** Date preparation : 01.12.2020

Eye Dam. 1	H318	Calculation method
Skin Irrit. 2	H315	Calculation method
<b>Based on Article. 15. Act of February 25, 2011 on chemical substances and their mixtures (Journal of Laws 2011 No. 63 item 322, as amended) the mixture was submitted to the ELDIOM database</b>		

**SAFETY DATA SHEET** Date preparation : 01.12.2020  
**(according to: Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 (REACH))**

## AROMA NEUTRALISER

**H-phrases** (indicating the type of hazard) used in sections 2 and 3. Safety data sheets:

H315	Causes skin irritation;
Skin Irrit. 2	Irritating for the skin Hazard Category 2
H319	Eye irritation.
Eye Irrit. 2	Eye irritation Hazard Category 2
H302	Harmful after swallowing
Acute Tox 4	Acute toxicity (digestive tract), Hazard Category 4
H318	Serious eye damage
Eye Dam 1	Serious eye damage/Irritating to eyes, Hazard Category 1
H226	Flammable liquid and vapor
Flam. Liq. 3	Flammable liquid, Hazard Category 3
H336	May cause drowsiness or dizziness.
STOT SE 3	Toxic effect on target organs - after single exposure Hazard category 3.

### Abbreviations and acronyms

NDS	The highest permissible concentration (TLV-TWA) (OEL-TWA) (PEL-TWA)
NDSch	Maximum permissible instantaneous concentration (TLV-STEL)
NDSP	The highest permissible ceiling concentration (TLV-CL)
LD <sub>50</sub>	Dose at which 50% of the tested organisms die
LC <sub>50</sub>	Concentration at which 50% of test organisms die
EC <sub>x</sub>	The concentration at which an X% reduction in growth or growth rate is observed
CAS number	Number assigned to a chemical by the US Chemical Abstracts Service (CAS), allowing the substance to be identified.
EC/EC Number	The number assigned to the chemical according to the European Inventory of Existing Chemical Substances (EINECS), or the number assigned to the substance on the European List of Notified Chemical Substances (ELINCS) Substances), or the number in the inventory of chemicals mentioned in "No-longer polymers".
GHS	Globally Harmonized System of Classification and Labeling of Chemicals (GHS, GHS ONZ)
UN number	Material identification number acc.to ADR agreement
ADR	Agreement concerning the International Carriage of Dangerous Goods by Road
RID	Regulations for the international carriage of dangerous goods by rail
IMGD	International Maritime Dangerous Goods Code.
IATA	International Air Transport Association
ICAO	International Civil Aviation Organization
MARPOL	The International Convention for the Prevention of Pollution from Ships (MARPOL)
Ems	Emergency response procedures for ships carrying dangerous goods

### Training

Before work with the product, the user should read the Health and Safety regulations regarding handling chemicals, and in particular, undergo appropriate workplace training.
