

SAFETY DATA SHEET

LAAV

LAAV AROMA NEUTRALISER

Date of update: 16.05.2023

VERSION: 3.0/EN
replaces the version of: 01.12.2020r

drawn up in accordance with Commission Regulation (EU) No 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

1 SECTION 1: IDENTIFICATION OF SUBSTANCE/MIXTURE AND COMPANY IDENTIFICATION

1.1 Product ID

LAAV AROMA NEUTRALISER

1.2 Relevant identified uses of the substance or mixture and uses advised against

Applications identified: Product for neutralizing unpleasant odours.

SU 21 Consumer Applications.

SU 22 Professional Applications.

PC3 Air Protection Products

Applications discouraged: Do not use on surfaces not resistant to acids.

1.3 Data concerning the supplier of the safety data sheet:

CSG Cleaning Solutions Sp. z o.o.

Hive. Komorowicka 39-41

PL 43-300 Bielsko-Biala

Phone: 33 47 11 174

www.laav.eu; contact@laav.eu

1.4 Emergency phone number

Emergency phone number in Poland (open from 8:00 a.m. to 1 a.m. 6:00 a.m.): +48 502 832 491

112 (emergency phone), 998 (fire brigade), 999 (medical emergency)

2 SECTION 2: HAZARD IDENTIFICATION

2.1 Classification of the substance or mixture

Classification in accordance with Regulation (EC) No 1272/2008:

Hazards due to physicochemical properties:

The mixture is not classified as hazardous in terms of physicochemical properties.

Health risks

Serious eye damage Hazard category 1 [Eye Dam. 1]

Causes serious eye damage (H318)

Skin irritation Hazard category 2 [Skin Irrit. 2]

Irritating to skin (H315)

Environmental hazards:

The mixture is not classified as hazardous to the environment

2.2 Label elements

Pictogram

GHS05

Signal word:

Danger

Names of hazardous ingredients on the label:

Contains: Lactic acid

Hazard statement(s)

H318 Causes serious eye damage

SAFETY DATA SHEET

LAAV

LAAV AROMA NEUTRALISER

Date of update: 16.05.2023

VERSION: 3.0/EN
replaces the version of: 01.12.2020r

drawn up in accordance with Commission Regulation (EU) No 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

H315 Irritating to skin

Prevention:

P102 Keep out of reach of children

P280 Wear protective gloves/protective clothing/eye protection/face protection.

Responding:

P305 + P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if they are and can be easily removed. Continue to rinse.

P310 Contact a POISON CENTER/doctor immediately

P302 + P352 SKIN CONTACT: Wash with plenty of water

Complementary label elements

Warehouse in accordance with Regulation 648/2004/EC

Contains: <5% non-ionic surfactants; fragrance compositions (Cinnamyl alcohol; Eugenol, Amyl cinnamal, Cinnamyl alcohol, Benzyl salicylate), Preservatives [Lactic Acid], dye

2.3 Other threats

The substances contained in the product do not meet the PBT or vPvB criteria according to Annex XIII of REACH. **PBT** substances (persistent, bioaccumulative and toxic substances)

vPvB substances (very persistent and very bioaccumulative substances)

The product shall not contain substances on the list drawn up in accordance with Article 59(1) due to endocrine disrupting properties or substances identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605 in a concentration equal to or greater than 0,1 % by weight.

3 SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Substance:

Nie not applicable

3.2 Mixture

Identification numbers	Chemical name	UL mass in %	Classification in accordance with Regulation (EC) No 1272/2008		
			Pictogram, signal code	Hazard class and category codes	Hazard statement codes
CAS: 68439-46-3 EC (EINECS): Polymer Index number: Registration number: REACH exemption: Polymer.	Alcohols, C9-11, ethoxylated	<10	GHS07 Hag	Acute Tox. 4 Eye Irrit. 2	H302 H319
CAS: 67-63-0 EC (EINECS): 200-661-7 Index number: 603-117-00-0 Registration number: 01-2119457558-25-xxxx	Propan-2-ol [1]	<5	GHS02 GHS07 Hag	Flam. Liq. 2 Eye Irrit. 2 STOT SE 3	H225 H319 H336

The full wording of H-phrases is given in point 16. Safety data sheets.

[1] Contains a substance with a nationally defined occupational exposure limit. See section 8

SAFETY DATA SHEET

LAAV

LAAV AROMA NEUTRALISER

Date of update: 16.05.2023

VERSION: 3.0/EN
replaces the version of: 01.12.2020r

drawn up in accordance with Commission Regulation (EU) No 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

4 SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Inhalation: Lead or remove the injured person from the exposure area, put in a comfortable semi-reclining or sitting position, provide calm, protect against heat loss. Control the breathing of the victim – in case of such a need (lack of breath), use artificial respiration and provide medical assistance.

Skin contact: Remove contaminated clothing and wash the skin thoroughly with lukewarm, running water.

Contact with eyes: Rinse with plenty of cool water, preferably running, for at least 15 minutes. Remove contact lenses. Avoid strong jets of water due to the risk of mechanical damage to the cornea. If the irritation persists, you should consult an ophthalmologist.

Gastrointestinal tract: Provide medical assistance. DO NOT vomit without consulting your doctor. Rinse mouth with plenty of water. Call a doctor.

4.2 The most important acute and delayed symptoms and effects of exposure

In contact with skin: Irritating to skin. Prolonged exposure may cause redness, dryness of the skin.

Allergies

There is always the possibility of allergy to one or several ingredients of the product. A low irritant claim does not mean that individuals will not react unfavorably. Natural substances are particularly sensitive to seasonal and other changes that can contribute to unforeseen reactions. Unfortunately, often the only remedy in these situations is to determine the exact cause of the reaction (usually with professional medical attention) and then avoid any exposure in the future.

In contact with the eyes: Kontakt provokes pain and watery eyes, chemical burn with corneal ulcers.

If swallowed: Severe nausea, abdominal pain, vomiting.

After inhalation: Inhalation of vapours may cause headache and dizziness, nausea and vomiting.

4.3 Indications for any immediate medical attention and special treatment of the victim

Show the safety data sheet or label/pack to the treating medical professional. In case of eye burns, wash the conjunctiva with water or saline (neutralizing solutions must not be used), to relieve pain - novocaine drops. Refer to an ophthalmologist. The workplace should be equipped with a shower and a position for rinsing eyes.

5 SECTION 5: FIRE MANAGEMENT

5.1 Extinguishing agents

Non-flammable product

Suitable extinguishing agents:

Foam, carbon dioxide, extinguishing powders, water – diffuse currents.

Unsuitable extinguishing agents:

Strong, compact stream of water - the risk of spreading fire.

5.2 Particular hazards of the substance or mixture

During combustion, toxic combustion products, mainly carbon monoxides, and other unidentified thermal decomposition products may be formed.

5.3 Information for the fire brigade

Apply general protective measures typical of fire. Do not stay in a fire hazard zone without appropriate chemical-resistant clothing and breathing apparatus with independent air circulation. Do not allow extinguishing water to enter the sewage system, surface water and groundwater.

6 SECTION 6: HANDLING OF UNINTENTIONAL RELEASES TO THE ENVIRONMENT

6.1 Personal precautions, protective equipment and emergency procedures

For persons not belonging to the assisting staff:

Restrict bystander access to the area of failure until the appropriate cleanup operations have been completed. In the case of large releases, isolate the affected area. Do not inhale vapours. Avoid contact with skin and eyes. Wear personal protective equipment. Ensure adequate ventilation.

SAFETY DATA SHEET

LA AV

LA AV AROMA NEUTRALISER

Date of update: 16.05.2023

VERSION: 3.0/EN
replaces the version of: 01.12.2020r

drawn up in accordance with Commission Regulation (EU) No 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

For helpers:

Ensure that the recovery of failures and its consequences is carried out only by trained personnel. Wear personal protective equipment. Remove ignition sources.

6.2 Environmental precautions

Where larger quantities of product are released, steps must be taken to prevent it from spreading in the environment. Notify the relevant emergency services

6.3 Methods and materials to prevent the spread of contamination and to remove contamination

Small leak: Collect with mop, paper towel and place in waste containers

Large leakage: Collect the product with liquid-absorbing materials (e.g. sand, with pulacea, universal binders, silica, etc.) and place it in waste containers. Do not mix with other waste. Treat the collected material as waste. Clean and ventilate the contaminated area well.

6.4 References to other sections

For information on suitable personal protective equipment, see section 8. Waste management: see section 13.

7 SECTION 7: HANDLING AND THEIR HANDLING OF SUBSTANCES AND MIXTURES

STORAGE

7.1 Precautions for safe handling

Work in accordance with the rules of health and safety. Avoid eye and skin contamination. Keep unused containers tightly closed. Use as intended. Ensure adequate ventilation of the rooms in which the product is stored and used. Do not inhale vapours. Do not smoke

7.2 Conditions for safe storage, including information on any incompatibilities

Store only in a cool and well-ventilated place. Temperature range: 0 to 40°C (Separated from food, foodstuffs and animal feed. Avoid direct sunlight, heat sources and ignition. Separated from incompatible substances (see section 10). Packages that have already been opened seal and store upright to avoid leakage.

7.3 Specific end use(s)

See section 1.2 of the SDS.

No information on other uses.

8 SECTION 8: EXPOSURE CONTROL/PERSONAL PROTECTIVE EQUIPMENT

8.1 Control parameters

PL:Propane-2-ol [67-63-0]

Recommended monitoring procedures

Procedures shall be used to monitor concentrations of hazardous components in the air and to control the air purity at the workplace - where available and justified at the workplace - in accordance with the relevant Polish or European Standards, taking into account the conditions prevailing at the site of exposure and appropriate measurement methodologies adapted to the operating conditions. The mode, type and frequency of tests and measurements should meet the requirements contained in the Regulation of the Ministry of Health of 2 February 2011 (Journal of Laws of 2011 No. 33, item 166).

8.2 Exposure control

8.2.1 Appropriate technical control measures

Necessary local and general ventilation. In the case of poor ventilation, use breath protection.

8.2.2 Personal protective equipment, such as personal protective equipment

Observe general safety and hygiene rules. During work, do not eat, drink or smoke. Ensure adequate ventilation. Before the break and after finishing work, wash your hands thoroughly. Avoid eye contamination.

Respiratory protection:

No ventilation is required for adequate ventilation. In the event of high vapour concentrations, failure or exceeding the maximum concentrations, use suitable respiratory protective equipment with a suitable organic vapour absorber.

Hand protection:

Wear chemical-resistant protective gloves. Recommended material for gloves: butyl rubber, nitrile rubber, neoprene.

In the case of short-term contact, use protective gloves with an effectiveness level of 2 or more (puncture time > 30 minutes). In case of prolonged contact, use protective gloves with an effectiveness level of 6 (puncture time > 480 minutes). Wear protective clothing.

The material from which the gloves are made must be impermeable and resistant to the product. The resistance of the materials from which the gloves are made must be checked before use. Information on the time of penetration of substances through the gloves should be obtained from the glove manufacturer and this time must be observed. It is recommended to change gloves regularly and replace them immediately if there are any signs of wear, damage (tearing, perforation) or changes in appearance (color, elasticity, shape).

Skin and body protection: Recommended use of typical workplace work clothing

Eye protection:

Wear sealed safety glasses

SAFETY DATA SHEET

LAAV

LAAV AROMA NEUTRALISER

Date of update: 16.05.2023

VERSION: 3.0/EN
replaces the version of: 01.12.2020r

drawn up in accordance with Commission Regulation (EU) No 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

The workplace should be equipped with a shower and a position for rinsing eyes.

8.2.3 Environmental exposure control

Protect against introduction into the municipal water and sewage system and watercourses. Possible emissions from ventilation systems and process equipment should be checked to determine their compliance with the requirements of environmental law.

9 SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Appearance:	Ciecz
Color:	Transparent for ego
Odour:	Characteristic - tartaric
Odour threshold:	No data available
pH:	3.0
Melting/freezing point:	<0oC
Initial boiling point:	< 72 °C
Flash point:	Non-flammable product
Evaporation speed:	No data available
Flammability of solids, gases:	Not applicable
Upper/lower flammability/explosion limit:	Not marked
Vapour pressure:	Not determined
Vapour density:	Not marked
Relative density:	approx. 1.0 g/cm ³
Solubility:	Rdrains in water
Partition coefficient: n-octanol/water:	No data available
Auto-ignition temperature:	Not marked
Decomposition temperature:	No data available
Viscosity 240C:	Not marked
Explosive properties:	Does not create the possibility of self-explosion
Oxidizing properties:	The mixture has no oxidizing properties

9.2 Other information

No results of additional studies.

10 SECTION 10:STABILITY and REACTIVITY

10.1 Reactivity

In conditions of storage and handling as intended – no reactivity.

10.2 Chemical stability

The product in conditions of proper storage and use (from 0 to 40 degrees Celsius, without prolonged exposure of sunlight) chemically stable

10.3 Possibility of dangerous reactions

Under normal conditions of storage and use, no hazardous reactions will occur.

10.4 Conditions to avoid

High temperatures, open flame and other sources of ignition.

10.5 Incompatible materials

Strong acids, oxidizing substances, Copper

10.6 Hazardous decomposition products

Depending on the conditions of decomposition, complex mixtures of chemical substances can be released as a result: carbon monoxide (CO₂), carbon monoxide and other organic compounds. For more information, see section 5.

11 SECTION 11:TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Supplementary information:

SAFETY DATA SHEET

LAAV

LAAV AROMA NEUTRALISER

Date of update: 16.05.2023

VERSION: 3.0/EN
replaces the version of: 01.12.2020r

drawn up in accordance with Commission Regulation (EU) No 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

No toxicological studies have been performed on this product, it has been classified according to the current classification rules for chemical mixtures. The evaluation was made on the basis of the ingredients included in the product. The mixture is classified as hazardous to health. See Section 2 Hazard identification

Toxicity of mixture components

C12-14 alcohols (even), ethoxylated < 2.5 TE, sulphates, sodium salts

LD50 Dermal (Rat) >2000 mg/kg -

LD50 Oral(Rat) >2500 mg/kg

Citric acid

LD50 Dermal (Rat) >2000 mg/kg -

LD50 Oral(mouse) 5400 mg/kg

Propan-2-ol]

LD50 Dermal Rat >2000 mg/kg

LD50 Oral Rat >2000 mg/kg

Toxicity of the mixture

Estimated acute toxicity of the mixture

ATE MIX orally (mg/kg): >2.000,0 [estimated]

ATE MIX leather (mg/kg): >2.000,0 [Estimated]

ATE MIX inhalation (mg/l/4h): >20 [estimated]

Based on the available data, the classification criteria are not met

The acute toxicity of the mixture (ATEmix) has been calculated on the basis of the relevant conversion factor contained in Table 3.1.2 of Annex I to the CLP Regulation and subsequent dates. d.

Acute toxicity

Based on the available data, the classification criteria are not met

Skin corrosion/irritation:

Irritating

Serious eye damage/eye irritation

Serious eye damage

Respiratory or skin sensitisation

Based on the available data, the classification criteria are not met

Specific target organ toxicity – single exposure:

Based on the available data, the classification criteria are not met

Specific target organ toxicity — repeated exposure:

Based on the available data, the classification criteria are not met

Dcarcinogenic

Based on the available data, the classification criteria are not met

Dgerm cell mutagenic:

Based on the available data, the classification criteria are not met

Reproductive toxicity:

Based on the available data, the classification criteria are not met

Aspiration hazard:

Based on the available data, the classification criteria are not met

Information on likely routes of exposure

In contact with skin:

Irritating to skin Dprolonged exposure may cause redness, dryness of the skin.

Allergies

There is always the possibility of allergy to one or several ingredients of the product. A low irritant claim does not mean that individuals will not react unfavorably. Natural substances are particularly sensitive to seasonal and other changes that can contribute to unforeseen reactions. Unfortunately, often the only remedy in these situations is to determine the exact cause of the reaction (usually with professional medical attention) and then avoid any exposure in the future

In contact with the eyes:

Contact provokes pain and watery eyes, chemical burn with corneal ulcers.

If swallowed:

Msevere nausea, abdominal pain, vomiting.

After inhalation:

Inhalation of vapours may cause headache and dizziness, nausea and vomiting

11.2 Information about other threats

Endocrine disrupting properties:

The components of the mixture have no effect on the functioning of the endocrine system in accordance with the assessment criteria set out in Regulations: (EC) No 1907/2006, (EU) 2017/2100, (EU) 2018/605

SAFETY DATA SHEET

LAAV

Other information: Not known

12 SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity

Toxicity of the mixture

The product is not classified as posing a risk to the environment.

To minimize long-term global pollution, consider the following:

- Reduce the consumption of disposable products and packaging.
- Participation in recycling activities
- Do not allow the product to enter water, sewage or soil

Toxicity of mixture components

C12-14 alcohols (even), ethoxylated < 2.5 TE, sulphates, sodium salts

EC50 2.6 mg/l Fresh water Algon - Desmodesmus subspicatus 72 hours

EC50 27 mg/l Fresh water Algon - Desmodesmus subspicatus 72 hours

NOEC 1 mg/l Fresh water Fish - Pimephales promelas 45 days

Citric acid

LC50 440 mg/l/48h fish

LC50 1535 mg/l/24h (Daphnia magna)

NOEC 425 mg/l/24h (Daphnia magna)

Propan-2-ol

LC50 Fish 9640 mg/l / 96 h/: Pimephales promelas

EC50 Daphnia 13299 mg/l / 48 h/ Daphnia magna

EC50 other aquatic organisms > 1000 mg/l / 96 h/ Desmodesmus subspicatus

LC50 Fish 11130 mg/l / 96 h/ Pimephales promelas

EC50 other aquatic organisms > 1000 mg/l / 72 h/ Desmodesmus subspicatus

12.2 Durability and degradability

The surfactants used in the product meet the biodegradability requirements in accordance with EC Regulation 648/2004

12.3 Bioaccumulation potential

For the mixture not specified.

12.4 No data are available for the mixture

Water soluble in any proportion

The mobility of substances depends on their hydrophilic and hydrophobic properties as well as abiotic and biotic conditions of the soil, including its structure, climatic conditions, season (in Poland, in a variable temperate climate) and soil organisms, mainly (bacteria, fungi, algae, invertebrates).

12.5 PBT and vPvB assessment results

Substances in the product are not evaluated as PBT and vPvB

12.6 Endocrine disrupting properties

It does not contain substances whose effects may have adverse effects on the environment due to endocrine disrupting properties in accordance with the criteria laid down in Regulations [(EC) No 1907/2006, (EU) 2017/2100, (EU) 2018/605]

12.7 Other harmful effects

The mixture is not classified as hazardous to the ozone layer. Other adverse effects on the environment (e.g. endocrine disrupting potential, increase in global warming) shall be considered.

13 SECTION 13: WASTE MANAGEMENT

SAFETY DATA SHEET

LAUV

LAUV AROMA NEUTRALISER

Date of update: 16.05.2023

VERSION: 3.0/EN
replaces the version of: 01.12.2020r

drawn up in accordance with Commission Regulation (EU) No 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

13.1 Waste disposal methods

Product disposal:

Do not dispose of the product together with household waste, do not enter the sewage system. Do not allow contamination of groundwater and surface water.

Dispose of in accordance with local requirements. Determine the waste code at the place of its production

Legal basis:

Act of 14 December 2012 on waste (Journal of Laws No. 0, item 21) **Consolidated text Journal of Law 2018, item 21**

Regulation of the Minister of Climate of 2 January 2020 on the waste catalogue, **Journal of Laws of 2020, item 10**

Act of 12 October 2017 amending the act on packaging and packaging waste management and some other acts Dz.U. 2017, item 2056

14 SECTION 14:TRANSPORT INFORMATION

14.1 UN number

Not applicable

14.2 Correct shipping name UN

Not applicable

14.3 Transport hazard class(s)

Not applicable

14.4 Packing group

Not applicable

14.5 Environmental hazards

The product does not pose a risk to the environment according to the criteria contained in the UN Model Regulations.

14.6 Special precautions for users

No special precautions.

14.7 Transport in bulk in accordance with Annex II to MARPOL 73/78 and the IBC Code

Not applicable.

15 SECTION 15:REGULATORY INFORMATION

15.1 Safety, health and environmental legislation specific to a substance or mixture

Restrictions according to REACH, Annex XVII	Mixture: No. 3, 75
Warehouse in accordance with Regulation 648/2004/EC	Contains: <5% non-ionic surfactants; fragrance compositions (Cinnamyl alcohol; Eugenol, Amyl cinnamal, Cinnamyl alcohol, Benzyl salicylate), Preservatives [Lactic Acid], dye

Other provisions

1. **1907/2006/EC** Regulation concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulations (EEC) No 793/93 and No 1488/94 as well as Council Directives 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.
2. **1272/2008/EC Regulation of the European Parliament and of the Council of 16 December 2008** on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006.
3. Regulation of the Minister of Health of 20 April 2012 on the labelling of packaging of hazardous substances and hazardous mixtures and certain mixtures (Journal of Laws of 2012 No. 0, item 445). **Consolidated text Journal of Law 2015, item 450**

- Act of 24 November 2017 amending the act on waste and some other acts, Journal of Laws of 2017, item 2422
- Act of 12 October 2017 amending the act on packaging and packaging waste management and some other acts, Journal of Laws of 2017, item 2056
- Act on the transport of dangerous goods of 19 August 2011 (Journal of Laws 227; item 1367) Consolidated text Journal of Law 2020, item **154,875**
- Government Declaration of 15 February 2021 on the entry into force of amendments to Annexes A and B to the European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR), done at Geneva on 30 September 1957 (**Journal of Laws of 2021, item 874**)

15.2 Chemical safety assessment

The supplier has not carried out a chemical safety assessment. For a mixture, a safety report is not required.

16 SECTION 16: OTHER INFORMATION

Other data sources:

IUCLID Data Bank (European Commission – European Chemicals Bureau).

ESIS – European Chemical Substances Information System (European Chemicals Bureau).

Person drawing up the card:	Malgorzata Krenke, M.A.	Based on the safety data sheet of suppliers. Calculation method
Card issued by:	"Feed Reach Consulting" www.frc.com.pl	

The above information was based on currently available data characterizing the product and the experience and knowledge possessed in this area by the manufacturer. The data contained in the Charter should be considered only as an aid to the safe handling of transport, distribution, use and storage. The card is not a certificate of product quality. And the information contained in the Charter applies only to the eponymous product and cannot be current or sufficient for this product used in combination with other materials or different applications. The user of the product is obliged to comply with all applicable standards and regulations and is also liable for improper use of the information contained in the Charter or improper use of the product

Classification and procedures used to classify the mixture in accordance with Regulation (EC) 1272/2008 [CLP]		
Eye Dam. 1	H318	Calculation method
Irrit Skin, 2	H315	Calculation method
On the basis of Article 15. Act of 25 February 2011 on chemical substances and their mixtures (Journal of Laws of 2011, No. 63, item 322, as amended), the mixture was reported to the ELDIOM database		

H-phrases (indicating hazard) used in points 2 and 3. Safety data sheets:

H315	Irritating to the skin;
Skin Irrit. 2	Skin irritation Hazard category 2
H319	Irritating to the eyes.
Eye Irrit. 2	Eye irritation Hazard category 2
H302	Harmful if swallowed
Acute Tox 4	Acute toxicity (oral), Hazard category 4
H318	Causes serious eye damage
Eye Dam 1	Serious eye damage/eye irritation, Hazard category 1
H226	Flammable liquid and vapour
Flam. Liq. 3	Flammable liquids, Hazard category 3
H336	May make you feel drowsy or dizzy.
STOT SE 3	Specific target organ toxicity – following single exposure Hazard category 3.

SAFETY DATA SHEET

LAAV

LAAV AROMA NEUTRALISER

Date of update: 16.05.2023

VERSION: 3.0/EN
replaces the version of: 01.12.2020r

drawn up in accordance with Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

In the explanation of abbreviations and acronyms

NDS	Maximum concentration at the workplace (TLV-TWA) (OEL-TWA) (PEL-TWA)
NDSCh	Maximum instantaneous concentration (TLV-STEL)
NDSP	Maximum Ceiling Concentration (TLV-CL)
LD ₅₀	Dose at which 50% of test animals are observed to die
LC ₅₀	Concentration at which 50 % of test animals die
EC _x	Concentration at which X % reduction in growth or growth rate is observed
CAS number	A numerical designation assigned to a chemical by the U.S. Chemical Abstracts Service (CAS) to identify the substance.
EC/EC number	Means the assigned number of a chemical substance in the European Inventory of Existing Commercial Substances (EINECS – European Inventory of Existing Chemical Substances), or the assigned number of a substance in the European List of Notified Chemical Substances (ELINCS – European List of Notified Chemical Substances), or chemical substance number in the publication 'No-longer polymers'.
GHS	Globally Harmonized System of Classification and Labelling of Chemicals (GHS, GHS UN)
UN number	Material identification number in accordance with the ADR agreement.
ADR	International Convention concerning the Carriage of Dangerous Goods and Goods by Road
RID	Regulations for the International Carriage of Dangerous Goods by Rail).
IMGD	International Dangerous Goods Code.
IATA	International Air Transport Association
ICAO	International Civil Aviation Organization
MARPOL	International Convention for the Prevention of Pollution from Ships (MARPOL)
Ems	Emergency response procedures for ships carrying dangerous goods

Training

Before working with the product, the user should familiarize himself with the health and safety rules regarding the handling of chemicals, and in particular undergo appropriate on-the-job training
